Current incentive rates as of 03.03.2025.

Steps to get started on your next energy efficiency project.

① Select a PPN member

Use the Request Expert Solutions (RES) or Find a Contractor (FAC) tool to contact a PPN member.

② Define scope of work

Work with a PPN member to determine the project scope, energy savings & estimated incentive.

③ Sign application

Your electronic signature will finalize the incentive application submitted by your PPN member.

Find a Contractor (FAC)

Online directory of active PPN members, select a single PPN to get started.

Request Expert Solutions (RES)

Online proposal request, get bids from multiple PPN members interested in your project.

Don't know where to start? Reach out to the program team if you have any questions.
